

## Winter Weather Operations

Providing safe travel on emergency, major arterial, and school routes will be the primary goal. Residential streets will be addressed in a timely manner after higher

priority routes have been completed. The amount of snow and conditions during each event will determine the time required to remove snow and the degree to which streets are plowed. Understand that response time will depend on many different factors, including when the storm begins, snow moisture and storm duration.

Our snow removal crews are prepared to work 24 hours a day. As long as the snow keeps falling, the City's top priority is to keep main roads open and passable. For a detailed map showing snow plow priorities please visit [www.nslcity.org](http://www.nslcity.org).

## Sidewalks/Driveways

Shoveling sidewalks is a property or business owner's responsibility. It is unlawful to blow, shovel or plow snow from private property onto a public street or right of way. Shoveling snow to the side of your driveway will lessen the amount of snow left at your driveway entrance and/or sidewalks during plowing (See Snow Removal Guidelines).

Our crews make every effort to minimize the amount of snow plowed into driveways but because it is unrealistic for operators to lift or rotate plow blades as they pass each driveway it is inevitable that this will occur. We suggest clearing your driveway several times during a storm or waiting until City

plowing activities have ended. Understand that the final step of a snow removal operation is to push back the edges to widen

the road to allow room for future snow, this may result in snow in your driveway.

Snow Removal Guidelines

## Winter Parking

From November 1 until April 1, no person shall park a vehicle, and no registered owner of a vehicle shall allow their vehicle to be parked, on any street for a period of time longer than thirty (30) minutes between the hours of eleven o'clock (11:00)P.M. and six o'clock (6:00)A.M. of any day, or during a snowfall when snow plows may be operating in order to facilitate snow removal and emergency access. The registered owner of the vehicle shall be held strictly liable for any violations and the penalty associated with the violation.
